Introduction

The Good Sports questionnaire is a self-assessment tool designed to help clubs reflect on their current practices and identify opportunities to reduce alcohol and other drug (AOD) related harm. It's not an assessment or a test. Instead, it highlights where Relationship Managers can support clubs to implement meaningful change and create safer, healthier, more family-friendly environments.

Clubs receive one of six versions of the questionnaire based on the level of potential for AOD-related harm identified during registration. Questions are grouped by topic, are aligned with the Good Sports program objectives and are informed by evidence-based approaches shown to reduce or prevent AOD-related harm. Questions also link to practical club resources and recommended actions. As clubs complete the questionnaire, they generate a tailored Good Sports policy based on the commitments they agree to undertake. When a club has endorsed a minimum set of questions in their program stream, they are eligible to sign their Silver Good Sports policy. When all questions have been answered and all actions completed, they can progress to signing their Gold Good Sports policy.

This guide has been developed to equip Relationship Managers with the knowledge needed to work effectively with clubs participating in Good Sports. It explains each question, the supporting AOD evidence, which questions are considered minimum criteria, the actions clubs are recommended to take to prevent AOD harm and key differences between streams. By providing this context, the guide enables staff to confidently facilitate conversations, tailor support to club needs, and help clubs create safer, healthier, more family-friendly environments.

Definitions

The Good Sports questionnaire uses the following terms. These terms appear throughout this guide, so it's important to understand what they mean.

Stream: Clubs are categorised based on if they; sell alcohol, consume alcohol or have junior members. (View stream information)

Group: The topic area the question sits within. Groups align to GS program objectives. (View group definitions)

Question: The prompt asked of clubs that reflects the practice they are expected to meet. Questions help identify where Good Sports can support clubs to prevent and reduce AOD harm.

Why: A short explanation of why the recommended practice matters. On the portal, this appears as '*Why is this important?'*.

How: A brief description of how a club can put the recommended practice into action. On the portal, this appears as *'What can your club do?'*.

Criteria: A short statement describing the recommended practice for a question.

Minimum criteria: A set of practices the club must meet to progress to Silver. (View minimum criteria)

Action item: Step-by-step instructions that guide clubs on how to meet the practice. These appear in a club's Action Plan when they select '*Not Yet'*.

Policy item: Statements included in the club's Good Sports policy that outline the commitments the club agrees to uphold.

Resources: Good Sports provides a range of helpful resources accessible via the online portal. Resources are linked on the question and action pages.

Registered Club: Completed registration but has not progressed to Silver or Gold Good Sports accreditation.

Old Accredited Club: A club engaged in Good Sports prior to 2020 and not yet transitioned to the Good Sports portal.

Silver Good Sports Club: Has endorsed all 'Required' questions and signed the corresponding Silver Good Sports Policy. This brief policy acknowledges the club's commitment to meeting required local laws and regulations in relation to alcohol, smoking, and vaping.

Gold Good Sports Club: Has endorsed all requirements in the questionnaire and signed their Gold Good Sports Policy. The full policy demonstrates that the club meets both legal compliance requirements and best practice for reducing alcohol and other drug harm.

Note: This resource does not present the questions in the order they appear in the portal.

Streams

Clubs are categorised based on if they; sell alcohol, consume alcohol or have junior members. The streaming process ensures clubs are only asked relevant questions to their club environment.

Streaming Questions:

1. **Does your club sell alcohol?**
   In a community sports club setting, selling alcohol refers to when alcohol is made available for purchase through a licensed bar
2. **Are training sessions, game days and events, whether held at the club or another venue, alcohol free?**
   In a community sports club setting, being alcohol-free means no alcohol is consumed by members, players or visitors during or after club activities or events. This applies everywhere: at the club, licensed venues, BYO settings, and any celebration, fundraiser, team function or club-organised event.
3. **Does your club have teams competing in junior competitions and/or juniors playing in senior teams?**
   In a community sports club setting, this includes junior players in both junior or senior competitions

Based on the club's responses to the streaming questions they are allocated to a stream:

High priority:

- **CSJ:** Clubs that consume and sell alcohol and have junior competition
- **CSNJ:** Clubs that consume and sell alcohol with no junior competition
- **CNSJ:** Clubs that consume alcohol but don't sell alcohol and have junior competition
- **CNSNJ:** Clubs that consume alcohol but don't sell alcohol and have no junior competition

Low priority:

- **NCNSJ:** Clubs that don't consume alcohol and don't sell alcohol and have junior competition
- **NCNSNJ:** Clubs that don't consume alcohol and don't sell alcohol and have no junior competition

Total questions by stream:

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Total # Of Questions	52	49	40	37	27	26
Total # Of Min Criteria	17	17	12	12	7	7

Groups

The questionnaire uses 'groups' to categorise related questions. Each group aligns to a key objective of the Good Sports program.

Alcohol

Supports the adoption of best-practice alcohol management by increasing alcohol awareness, minimising risk drinking behaviours, and reinforcing responsible service of alcohol.

Community Leadership

Assists clubs in demonstrating leadership by fostering a positive and inclusive culture, supporting help-seeking behaviours, upholding strong club values, and contributing to community health and wellbeing.

Governance

Strengthens club operations by enhancing governance structures, including incident management, policy development and the club's code of conduct.

Illicit Drugs

Supports the protection of members' health and safety by increasing awareness of illicit drug harms, establishing clear expectations, and providing guidance on responding to drug-related incidents.

Juniors

Supports clubs to reduce young people's exposure to alcohol and other drugs through positive role modelling, providing alcohol-free environments, and limiting alcohol promotion.

Legal Compliance

Ensures adherence to relevant alcohol and liquor licencing laws and regulations, promoting responsible service and consumption, public safety and alcohol-harm reduction.

Mental Health

Promotes the mental health and wellbeing of club members by providing education opportunities and strengthening pathways to appropriate support services.

Smoking and Vaping

Supports the creation and maintenance of smoke-free and vape-free environments through adherence to state and territory laws, education initiatives, and promotion of support services.

Question count by group and stream:

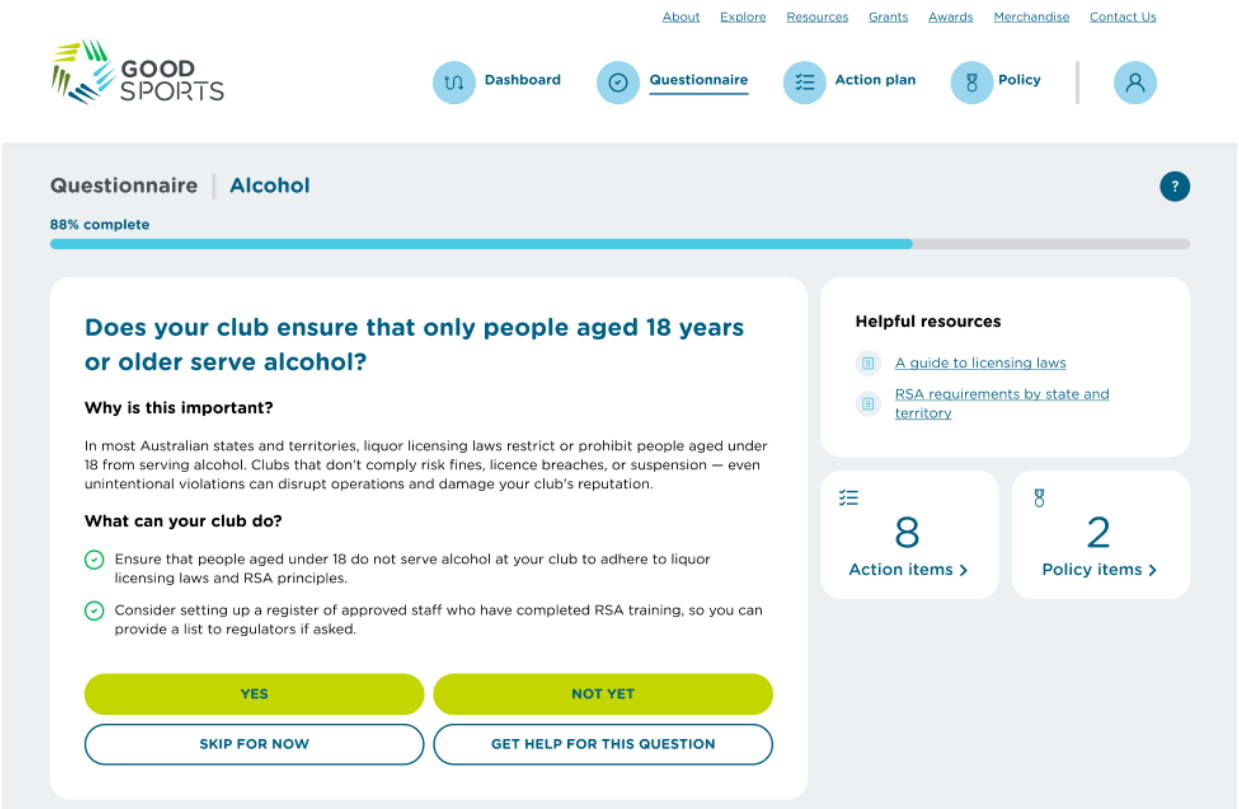

Group	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Alcohol	19	19	10	10	4	4
Community Leadership	5	5	5	5	5	5
Governance	4	4	4	4	4	4
Illicit Drugs	3	3	3	3	3	3
Juniors	4	1	4	1	1	0
Legal Compliance	8	8	5	5	1	1
Mental Health	3	3	3	3	3	3
Smoking and Vaping	6	6	6	6	6	6

Good Sports Portal

The Good Sports Portal is where clubs log in to complete their questionnaire, access resources, review action items, send their Good Sports policy and access their accreditation certificate.

When answering each question, clubs have the option to select '*Yes*', '*Not Yet*' '*Skip for Now*' and '*Get Help*'. Each option triggers a different outcome in the portal:

- **Yes** – The club is already meeting the recommended practice. A policy item is added to their Good Sports policy to show their commitment.
- **Not Yet** – An action item is added to the club's Action Plan. The Action Plan guides the club through the steps needed to meet the required practice.
- **Skip for Now** – The question moves to the end of the questionnaire so the club can return to it later.
- **Get Help** – A case is generated in Salesforce for the club's Relationship Manager to follow up and provide support.

Alcohol

Supports the adoption of best-practice alcohol management by increasing alcohol awareness, minimising risky drinking behaviours, and reinforcing responsible service of alcohol.

Note: Criteria in red font is minimum criteria

Criteria	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Club ensures bar staff do not consume alcohol on duty	✓	✓

Club ensures alcohol is not consumed at club events, including at licensed venues					✓	✓

Does your club prohibit bar staff from drinking alcohol while on duty?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club ensures bar staff do not consume alcohol on duty.					
Why	All states/territories prohibit staff from being intoxicated while serving alcohol. If staff or volunteers drink while on duty, it might breach your licensing conditions and result in fines or losing your licence. It is important that bar staff do NOT consume alcohol while on duty as it may: 1. Impacts their RSA judgement, including asking intoxicated individuals to leave. 2. Impair coordination and judgement, increasing the risk of an incident occurring. 3. Negatively affect the club's image and community trust (especially among families and junior members) and sets a poor example for younger club members.					
How	Ensure that bar staff know that drinking alcohol while on duty is not allowed.					
Action items	1. Ensure bar staff are trained in Responsible Service of Alcohol (RSA) and are supported by the committee to not drink alcohol when serving. 2. Ensure bar staff are aware that drinking alcohol on duty is not permitted, even during a break from bar service. 3. Monitor alcohol consumption by bar staff and address issues of non-compliance.					
Policy	Our club ensures bar staff do not consume alcohol while on duty to support safe and responsible service.					

Resources:

- Managing alcohol at your club
- Drinking alcohol while on bar duty

Does your club ensure free drinking water is readily available when alcohol is sold, served or consumed?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Water is available free of charge when alcohol is sold, served or consumed.					
Why	Having water freely available when alcohol is sold, served, or consumed is recommended to reduce alcohol harms and is an important part of responsible service of alcohol. Drinking water can slow down the rate of alcohol absorption and intoxication and helps people stay hydrated. Many liquor licensing laws require free drinking water to be accessible when alcohol is sold or served. Non-compliance can result in fines or licensing issues.					
How	Ensure that water is available free of charge when alcohol is being sold, served or consumed. Water may be served at the bar, or available via a self-serve water fountain/dispenser.					
Action items	Provide water free of charge to members and guests when alcohol is sold, served or consumed. Water can be made available at the bar, in a jug with glasses on the bar counter or in a portable water cooler.					
Policy	Our club ensures that water is available free of charge when alcohol is sold, served or consumed to encourage water consumption, reduce dehydration risk, and meet guidelines for responsible alcohol service.					

Resources:

- Free water poster

Does your club provide a range of non-alcoholic (e.g. water, soft drink, juice) and low-alcohol drink options?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has non-alcoholic and low-alcoholic options available for purchase.					
Why	Providing alcohol-free and low-alcohol (less than 3.5% alcohol content) drinks gives members and guests alternatives that lower the risk of alcohol-related harm and: • Help people pace their drinking, reducing the likelihood of intoxication, accidents, aggression and poor decision making. • Reinforce the club's duty of care to members and guests. • Creates a responsible drinking culture that is supportive of people who choose not to drink, are designated drivers, or young people.					
How	Ensure you have non-alcoholic drinks (e.g. water, soft drinks, juice) available Check with your alcohol supplier if they have low-alcohol drinks, or find an additional supplier that does. Display these drinks prominently, so people know they're available.					
Action items	1. Stock non-alcoholic drink options, such as water, soft drinks, juice. 2. Locate a supplier of low-alcohol drinks. Your current supplier may already supply low-alcohol options, such as mid-strength or light beer, low-alcohol cider, reduced-alcohol wine. 3. Display non-alcoholic and low-alcohol drinks in a prominent position.					
Policy	Our club provides a range of non-alcoholic and low-alcohol drinks to provide members and guests with alternative drink options that lower the risk of alcohol-related harm.					

Resources:

- Managing alcohol at your club

Does your club sell non-alcoholic drinks (e.g. water, soft drink, juice) and low-alcohol options for less than the price of full-strength alcohol drinks?

Stream	**CSJ**	**CSNJ**	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club prices non-alcoholic and low-alcoholic options cheaper than full strength alcoholic drinks.					
Why	Pricing non-alcoholic and low-alcohol (less than 3.5% alcohol content) drinks lower than full-strength alcohol drinks makes them more accessible and affordable, meaning people are more likely to choose them. This can help to minimise intoxication and alcohol-related harm, which aligns with the Responsible Service of Alcohol (RSA) principles. Low-alcohol options typically have an alcohol content of less than 3.5%, while full strength alcohol drinks have an alcohol content of more than 3.5%.					
How	Price non-alcoholic and low-alcohol drinks lower than the price of full-strength alcohol drinks.					
Action items	1. Review all pricing to ensure that non-alcoholic and low-alcohol drinks cost less than full-strength alcohol drinks. 2. Ensure non-alcoholic and low-alcohol drinks are placed in prominent positions at the bar and in club promotions.					
Policy	Our club prices non-alcoholic and low-alcohol drinks lower than the price of full-strength alcohol drinks to make them more accessible and affordable.					

Resources:

- Managing alcohol at your club

Does your club ensure happy hour drink promotions do not occur?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not conduct happy hours.					
Why	‘Happy hour/s’ are when discounted alcoholic drinks are offered for a set time. They increase the risk of alcohol-related harm by encouraging rapid consumption and binge drinking, and go against RSA principles. If drink promotions lead to intoxication, clubs can face licensing breaches, fines, reputational risk and potential insurance issues. Many club events include children and young people. Avoiding alcohol promotions, such as ‘happy hour/s’ helps maintain a safe, welcoming and family-friendly club environment.					
How	If your club conducts ‘happy hours’, replace with alternatives, such as organising social events and fundraisers that don’t include alcohol promotions.					
Action items	1. Eliminate ‘happy hour/s’ drink promotions, to ensure that rapid and excessive alcohol consumption is not encouraged. 2. Educate bar staff on why ‘happy hour/s’ will no longer be offered at your club. 3. Communicate to your members that ‘happy hour/s’ will no longer be offered at your club and why.					
Policy	Our club does not conduct happy hour/s drink promotions, to ensure that rapid and excessive alcohol consumption is not encouraged.					

Resources:

- Managing alcohol at your club

Does your club ensure cheap or discounted alcoholic drinks are not promoted?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not conduct cheap drink promotions.					
Why	Cheap and discounted alcoholic drinks encourage rapid consumption and people may drink more than they had planned, increasing the risk of alcohol- related harm. Examples of cheap or discounted drink promotions include: • 'Drink specials' - reducing the price of drinks containing alcohol at a club event • 'Drink of the month' - promoting a specific drink containing alcohol at a lower price. Promotions that encourage excessive consumption of alcohol can lead to binge drinking and go against RSA principles. Avoiding promotion of discounted alcohol helps maintain a safe, welcoming and family-friendly club environment. If drink promotions lead to intoxication, clubs can face licensing breaches, fines, reputational risk and potential insurance issues.					
How	If your club conducts cheap or discounted alcoholic drink promotions, ensure these are no longer offered. Consider alternatives, such as organising social events and fundraisers that include promotions that are not alcohol-based. Good Sports can recommend non-alcoholic drink alternatives.					
Action items	1. Eliminate discounted alcoholic drink promotions, to ensure that rapid and excessive alcohol consumption is not encouraged. 2. Educate bar staff on why discounted alcoholic drink promotions will longer be offered at your club.					
Policy	Our club does not conduct promotions on discounted alcoholic drinks, to ensure that rapid and excessive alcohol consumption is not encouraged.					

Resources:

- Managing alcohol at your club

Does your club ensure that drinking competitions or drinking games do not occur, including as part of club celebrations?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not conduct drinking competitions or games.					
Why	**CS:** Drinking competitions and games (e.g. sculling competitions, beer pong tournaments and boat races) don't align with RSA principles and can lead to rapid alcohol consumption and binge drinking, increasing alcohol-related harm. This can result in licensing breaches, fines and potential insurance issues. Drinking competitions or drinking games played at club celebrations and events, such as marking the end of a season (e.g. 'Mad Monday'), can lead to impaired judgement, increased risk of injuries and/or road crashes, conflict between individuals, and harm to your club's reputation. Young players and members may also be influenced to consume alcohol. **CNS:** Drinking competitions and games (e.g. sculling competitions, beer pong tournaments and boat races) can increase the risk of alcohol-related harm. While unlicensed BYO clubs are not subject to RSA or liquor licensing penalties, these activities may still breach club policies or insurance requirements. Drinking competitions or drinking games played at club celebrations and events, such as marking the end of a season (e.g. 'Mad Monday'), can lead to impaired judgement, increased risk of injuries and/or road crashes, conflict between individuals, and harm to your club's reputation. Young players and members may also be influenced to consume alcohol.					
How	If your club allows drinking games or competitions, discontinue this practice. Instead, organise social events and celebrations with non-alcohol-related activities.					
Action items	**CS:** 1. Ban drinking competitions and drinking games, to ensure that rapid and excessive alcohol consumption is not encouraged. 2. Educate bar staff on why drinking competitions and drinking games will no longer be allowed at your club. **CNS:** 1. Ban drinking competitions and drinking games, to ensure that rapid and excessive alcohol consumption is not encouraged. 2. Educate club members on why drinking competitions and drinking games will no longer be allowed at your club.					
Policy	Our club does not allow drinking competitions or drinking games at any club activity, including club celebrations, to ensure rapid and excessive alcohol consumption is not encouraged.					

Resources:

- Managing alcohol at your club
- Event management guidelines

Does your club ensure there are no 'open bar' events, or events with unlimited alcohol for a fixed price?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not run events that offer an open bar or provide unlimited access to alcohol.					
Why	Club events offering an 'open bar' or unlimited alcohol for a 'fixed price' often lead to rapid or excessive alcohol consumption, increasing the risk of alcohol-related harm. This can impair judgment and decision-making, and increase the chance of accidents, injuries, and violence. • An 'open bar' refers to an event where drinks are available at no cost to members, sometimes limited by time or a set budget. • A 'fixed price' ticket includes both the admission to an event and unlimited alcoholic drinks ('all you can drink'). Fixed price tickets are not inclusive for people who choose not to drink alcohol and may discourage attendance.					
How	If your club holds 'open bar' or 'fixed price' events, discontinue this practice. Consider holding events where the ticket price includes food (e.g. BBQ or buffet) and/or non-alcoholic drinks, with alcoholic drinks purchased separately.					
Action items	**CS:** 1. Ensure club events adhere to event management guidelines regarding providing and serving alcohol. 2. Educate bar staff on why 'all you can drink' events will no longer be offered at your club. 3. Eliminate event information that uses the term "all you can drink" as part of any promotion. **CNS:** 1. Ensure club events adhere to event management guidelines regarding providing and serving alcohol. 2. Educate club members on why 'all you can drink' events will no longer be offered at your club. 3. Eliminate event information that uses the term "all you can drink" as part of any promotion.					
Policy	Our club encourages safer celebrations and events by not offering an 'open bar' or providing unlimited access to alcohol.					

Resources:

- Managing alcohol at your club
- Event management guidelines

Does your club ensure that spirits are not sold or supplied as double measures or 'shots'?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not sell or supply spirits as double measures or 'shots'.					
Why	To support responsible service practices, the club should not sell or supply shots or double measures of spirits. A shot is typically a 30ml serve of distilled spirits (around 40% alcohol) consumed without a mixer. A double measure refers to a serve of spirits that is approximately double the standard pour and taken without a mixer. The alcohol content can vary because double measures are often free poured rather than measured. Shots and double measures deliver high amounts of alcohol quickly, encourage rapid consumption, and can be easy to underestimate, increasing the risk of intoxication and alcohol-related harm.					
How	Ensure your club no longer sells spirits served as double measures or 'shots'.					
Action items	1. Cease selling or supplying spirits as double measures or 'shots' to ensure that rapid and excessive alcohol consumption is not encouraged. 2. Educate bar staff on why double measures and 'shots' will no longer be sold or served at your club.					
Policy	Our club ensures that spirits are not sold or supplied as double measures or 'shots' to discourage rapid and excessive alcohol consumption.					

Resources:

- Managing alcohol at your club
- Alcohol standard drinks poster

Does your club ensure that vouchers or cards for alcoholic drinks are not provided?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not provide drink vouchers or cards.					
Why	Providing drink vouchers or cards for alcoholic drinks may encourage people to drink more than they had planned, increasing the risk of alcohol- related harm. Engaging in excessive alcohol consumption may impair a person's judgement and decision making and increase the risk of accidents, injury and violence. Many club events involve juniors, parents, drivers and non-drinkers. By providing vouchers or cards that can be used for alcohol-free drinks you can make everyone feel included and shift the focus to social connection, not alcohol consumption.					
How	If your club provides vouchers or cards for alcoholic drinks, ensure these are no longer offered. Consider alternatives, such as vouchers or cards for alcohol-free drinks, or other non-alcohol related prizes or rewards (e.g. food vouchers).					
Action items	**CS:** 1. Eliminate vouchers or cards for alcoholic drinks, to ensure that excessive alcohol consumption is not encouraged. 2. Educate bar staff on why vouchers or cards for alcoholic drinks will no longer be provided at your club. **CNS:** 1. Eliminate vouchers or cards for alcoholic drinks, to ensure that excessive alcohol consumption is not encouraged. 2. Educate club members on why vouchers or cards for alcoholic drinks will no longer be provided at your club.					
Policy	Our club ensures vouchers or cards for alcoholic drinks are not provided, including at club celebrations, to ensure that excessive alcohol consumption is not encouraged.					

Resources:

- Event management guidelines

Does your club ensure substantial food is available when the bar is open?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has substantial food available when the bar is open.					
Why	Providing substantial food when alcohol is being consumed reduces the chance of intoxication as people are likely to drink at a slower pace, and eating food reduces the rate at which alcohol is absorbed by the body. Providing food while the bar is open shows that your club supports the responsible service of alcohol. It can also be a good revenue source for your club and provide an opportunity for members and guests to socialise after games. Food can be sold or provided at no cost.					
How	Clubs can support responsible service of alcohol by making substantial food options readily available whenever alcohol is sold or supplied. This can be as simple as offering prepared items like hot snacks, sandwiches, or light meals to ensure substantial food is accessible to members and guests.					
Action items	1. Plan simple, substantial food options to provide at your club, don't rely on packet snacks as the only option. 2. Display a basic food menu at the bar so members and guests know what's available. 3. Include food availability in event planning.					
Policy	Our club ensures substantial food is available when alcohol is consumed to support responsible service and reduce intoxication risk.					

Resources:

- Substantial food guide

Does your club ensure that only people aged 18 years or older serve alcohol?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Only people aged 18 years or older serve alcohol.					
Why	In most Australian states and territories, liquor licensing laws prohibit people under 18 from serving alcohol, or place strict restrictions on it (e.g. only under supervision). Allowing people under 18 to serve alcohol can expose them to intoxicated behaviour, as well as increase the likelihood that they will start drinking at an earlier age. Younger people may find it challenging to refuse service, check ID, or manage conflict, which may increase the risk of illegal supply. Young people may also face emotional stress, harassment, or unsafe situations when dealing with intoxicated patrons. Ensuring only adults serve alcohol supports RSA principles, and a stronger club culture.					
How	Ensure that people aged under 18 years do not serve alcohol at your club. Consider setting up a register of all bar servers with an approved RSA certification - this will make it easy for your club to provide a list if a regulator requests it.					
Action items	1. Ensure only people aged 18 years or older serve alcohol at your club 2. Ensure all people serving alcohol have completed RSA training 3. Set up a register of all the people who are approved to serve alcohol at your club and have completed RSA training.					
Policy	Our club ensures that only people aged 18 years or older serve alcohol.

Does your club ensure that advertising and promotion of events align with responsible service of alcohol practices, and encourage safe transport practices?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Advertising and promotion of events support responsible service of alcohol practices.					
Why	The way a club advertises and promotes its events (e.g. Facebook events, posters) can strongly influence how people choose to drink. By reinforcing safe alcohol practices and safe transport options, clubs encourage members and guests to make safer, healthier choices. It also ensures the club meets licensing requirements and duty-of-care obligations.					
How	When planning club events, ensure advertising and promotion reinforce safe alcohol practices that discourage excessive or rapid drinking, clearly communicate event times, and include safe transport options. Clear, consistent communication encourages members and guests to make safer choices, supports a positive club culture, and reduces the likelihood of alcohol-related harm.					
Action items	Ensure that the advertising and promotion of club events: 1. Don't encourage rapid consumption of alcohol or excessive drinking, this includes overemphasising the availability of alcohol. 2. Give equal reference to the availability of alcohol-free drinks. 3. Display a clear start and finish time for the event. 4. Include safe transport options to and from events.					
Policy	Our club is committed to advertising and promoting events that support responsible service of alcohol practices and encourage members and guests to plan safe transport to and from the club.

Consumer Sell/ Consumer Non-Sell (CS/CNS): **Does your club ensure that all official trips, including end-of-season player trips, follow responsible alcohol practices?**

Non-Consume Non-Sell (NCNS): **If your club has end of season player trips, do you ensure alcohol is not consumed?**

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	**CS and CNS:** Club promotes responsible alcohol practices on club trips, including end-of-season player trips. **NCNS:** Club promotes alcohol-free club trips, including end-of season player trips					
Why	**CS and CNS:** Player outings and trips are a great way to celebrate and build team connection, but official trips still represent the club. If alcohol isn't managed responsibly, it can create unsafe situations, harm individuals and damage the club's reputation. Monitoring behaviour and encouraging safer drinking helps to: • Reduce the risk of alcohol-related harm to players and volunteers – including injuries and legal issues. • Avoid behaviour that reflects poorly on the club • Meet the club's duty of care obligations when organising official outings and trips. **NCNS:** Player outings and trips are a great way to celebrate and build team connection, but official trips still represent the club. Maintaining an alcohol-free environment helps prevent unsafe situations, protects members, and upholds the club's reputation. Monitoring behaviour and reinforcing the club's expectations helps to: • Reduce the risk of harm to players and volunteers – including, injuries, conflict and legal issues • Prevent behaviour the reflects poorly on the club Meet the club's duty of care obligations when organising official outings and trips.					
How	**CS and CNS:** Promote responsible alcohol practices during official club outings and trips, to show leadership, set a positive example for younger players, and reinforce a culture where fun and social connection matter more than drinking alcohol. **NCNS:** Promote positive club culture during official outings and trips by reinforcing the club's alcohol-free policy. By showing leadership and modelling healthy behaviour, clubs set a strong example for younger players and help build a culture where fun, connection and team spirit matter more than drinking.					
Action items	**CS and CNS:** When planning club outings and trips: 1. Set clear expectations around alcohol use. 2. Ensure food, water, and alcohol-free options are available. 3. Choose activities that aren't centred on alcohol. 4. Promote safe transport practices. Most bus companies prohibit alcohol consumption on buses. If you're organising a bus for transport to and from the outing or trip, let players, members and volunteers know that drinking alcohol on the bus is not allowed. **NCNS:** When planning club outings and trips:					

	1. Set clear expectations that the trip is alcohol-free, and communicate this to all players, members and volunteers before departure. 2. Ensure food, water and other non-alcoholic options are available. 3. Choose activities that promote team connection without involving alcohol. Promote safe transport practices, including clear guidance about behaviour while travelling.
Policy	**CS and CNS:** Our club ensures that all club outings and trips, including end-of-season player trips, follow responsible alcohol practices to lower the risk of alcohol-related harm, and promote a positive club culture. **NCNS:** Our club ensures that alcohol is not consumed at all club outings and trips, including end-of-season player trips.

Does your club provide opportunities for coaches, officials, members and volunteers to learn about alcohol and ways to prevent alcohol-related harm?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club provides opportunities for coaches, officials, members and volunteers to learn about alcohol and how to prevent or reduce alcohol-related harm.					
Why	When coaches, officials, members and volunteers understand alcohol-related risks, they can help prevent and minimise harm across the club and community. Coaches and club leaders are role models. Their attitudes and behaviours shape expectations across the club. When they feel confident talking about alcohol and its impacts, they can guide young people and peers toward safer, healthier choices. The more club members there are who understand how to reduce alcohol-related harm, the less likely the club is to experience incidents such as injuries, unsafe behaviour, drink driving or conflict.					
How	• Good Sports offers an Alcohol Awareness online learning module that you can share with coaches, officials, members and volunteers. • Support your club by attending a Good Sports Alcohol Management workshop, or share helpful information and resources through your club's social media channels or club website.					
Action items	To increase alcohol awareness at your club: 1. Identify the most appropriate awareness raising strategy. This may include one or more of the following: • attending a Good Sports Alcohol Management Workshop • circulating the online Good Sports Alcohol Awareness module • circulating information and resources about alcohol risks and harms on your social media or website. 2. Participate in local and national alcohol awareness campaigns, for example, through posts on club social media. 3. Consider running an alcohol awareness round or event. 4. Identify a volunteer who can coordinate your alcohol awareness efforts.					
Policy	Our club provides opportunities for coaches, officials, members and volunteers to learn about alcohol and ways to prevent or reduce alcohol-related harm.

Does your club promote safe transport practices (e.g. club bus, rideshare) to prevent drink driving?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club promotes safe transport practices to prevent drink driving.					
Why	Clubs have a responsibility to look after the wellbeing of members. Promoting safe transport shows that the club takes this duty seriously and is proactive about keeping the community safe. Encouraging and providing safe transport options helps to reduce the risk of injuries, road crashes and fatalities by preventing club members from driving under the influence of alcohol.					
How	Implement at least three safe transport practices from the list provided in the Good Sports Guide to Safe Transport.					
Action items	Implement strategies at your club to prevent drink driving, these could include: • A designated driver program. • Taxi/rideshare vouchers given as prizes. • Displaying taxi phone numbers. • Free club transport (i.e. club bus).					
Policy	Our club encourages members to plan their transport to and from games and events to prevent drink driving, and reduce the risk of injuries, road crashes and fatalities.					

Resources:

- Guide to safe transport (Metro)
- Guide to safe transport (Regional)

Do all bar staff hold a valid Responsible Service of Alcohol (RSA) certification?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Bar staff have a valid RSA certification.					
Why	Ensuring everyone who serves alcohol at your club holds a current RSA certification helps protect members, visitors and the broader community. RSA training gives bar staff the skills to serve alcohol safely and confidently refuse service when needed. It also helps prevent alcohol-related incidents and supports a safe and welcoming club environment.					
How	In some states and territories, bar staff are required to hold a valid RSA certification. Review your liquor licence to see if this applies to your club. There are many providers of RSA training, contact your state or territory liquor licensing authority to find an accredited provider. Ensure all bar staff have a valid RSA certificate and if expired, make sure staff complete a refresher course.					
Action items	1. Check your club's liquor licence or permit to understand the requirement for RSA training. 2. Ensure all bar staff have completed their Responsible Service of Alcohol (RSA) certification. 3. If any bar staff have not yet completed RSA training, contact your state or territory liquor licensing authority to find an approved provider, or organise a session at the club. 4. Maintain current RSA accreditation by reviewing bar staff certificates at the start of each season and ensuring a refresher course is completed where required.					
Policy	Our club ensures that bar staff hold a valid Responsible Service of Alcohol (RSA) certification.

Does your club ensure alcohol is not consumed at club events, including at licensed venues?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	**NCNSJ**	**NCNSNJ**
Criteria	Club ensures alcohol is not consumed at club events, including at licensed venues					
Why	Being an alcohol-free club creates a positive, inclusive, and family-friendly environment. It encourages connection and promotes safe, enjoyable events for everyone.					
How	Commit to holding alcohol-free events, including at club events held at licensed venues.					
Action items	1. Commit to only holding alcohol-free events 2. Consider alternative venues for club events that do not sell or supply alcohol 3. Communicate to club members why your club is alcohol-free					
Policy	Our club ensures alcohol is not consumed at club events, including at licenced venues.					

Does your club have processes in place to ensure zero-alcohol drinks are not promoted, sold or supplied to anyone under 18 years of age?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has processes in place to ensure zero-alcohol drinks are not promoted, sold or supplied to anyone under 18 years of age					
Why	'Zero-alcohol' drinks attempt to mimic alcoholic beverages. These drinks may contain zero alcohol or as much as 0.5%. These drinks can normalise drinking behaviours and increase young people's exposure to alcohol branding and drinking culture. This early exposure can shape attitudes toward alcohol, increase curiosity about drinking, and reduce the perceived risks associated with alcohol use. Preventing the sale or supply of 'zero-alcohol' beverages to people under 18 helps reduce these risks and discourages early drinking.					
How	If your club sells or supplies 'zero-alcohol' drinks that mimic alcohol, ensure these are managed in the same way as alcoholic drinks. If your club doesn't sell or supply 'zero-alcohol' drinks, your club is already meeting this requirement.					
Action items	1. Ensure 'zero-alcohol' drinks that mimic alcohol are not promoted at your club. 2. Ensure 'zero-alcohol' drinks are not sold or supplied to people under 18. 3. Manage 'zero-alcohol' drinks in the same way as alcoholic drinks, including how they are sold and supplied.					
Policy	Our club ensures that 'zero-alcohol' drinks are managed in the same way as alcoholic drinks, including not promoting, selling or supplying these to people aged under 18 years.

Does your club commit to promoting your involvement in the Good Sports program?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club commits to promoting involvement in the Good Sports program.					
Why	By promoting your involvement in the Good Sports program to volunteers, members and the wider community, your club shows a clear commitment to providing a safe, healthy, inclusive and family-friendly sporting environment. Sharing your club's efforts to reduce alcohol and other drug harm encourages other clubs to follow your lead, helping to build safer and more inclusive sporting communities.					
How	Promote your involvement in Good Sports on your club social media channels, website, and/or newsletter. When your club reaches Silver or Gold, you'll get access to free Good Sports merchandise and promotional materials, so you can share your achievement/s as a Good Sports club far and wide.					
Action items	1. Download the Good Sports social media tiles and/or promotional posters you receive when you reach Silver and Gold club status. 2. Share your club's Good Sports involvement via club social media channels, website or newsletter. Discuss what it means for the club to be involved in Good Sports. 3. Talk about Good Sports at key moments, such as season launches, committee meetings, volunteer inductions or presentations to ensure practices are embedded within the club. 4. Promote Good Sports' activities or campaigns to reinforce your club's commitment to a safe, healthy and inclusive environment. 5. When your club reaches Silver or Gold status, take advantage of your free Good Sports merchandise.					
Policy	Our club is proud to be part of the Good Sports program and is committed to promoting our participation on our club social media channels, website, newsletters, and other communications.

- Social Media Tiles

Does your club display contact details for alcohol and other drug support services?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club displays contact details for alcohol and other drug support services.					
Why	Promoting alcohol and other drug support services increases awareness, reduces stigma and encourages people to seek help. Displaying contact details of alcohol and other drug support services helps people know where to find help when they need it.					
How	Display and/or promote alcohol and other drug services at your club, and on your club social media channels, website and other communications such as: - The National Alcohol and Other Drug Hotline 1800 250 015, - Alcohol and Drug Foundation (ADF) website (www.adf.org.au) and - ADF Help and Support website (Help & Support - Alcohol and Drug Foundation) offering services across Australia.					
Action items	1. Display the Good Sports alcohol and other drug support services poster in visible locations around the club, such as the back of toilet doors and in changing rooms. 2. Share alcohol and other drug support service information on your club's social media channels, newsletter or website.					
Policy	Our club displays and/or promotes alcohol and other drug support services as part of our commitment to supporting the health and wellbeing of our members and broader community.

Does your club ensure that alcohol-only gifts, awards or raffle prizes are not provided?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not provide alcohol-only gifts, awards or raffle prizes.					
Why	Using alcohol as a gift, award or raffle prize can reinforce the idea that drinking is a normal or expected part of club life and unintentionally promote alcohol use. Choosing prizes that aren't centred on alcohol helps to shift the focus towards healthier, more inclusive ways of recognising and rewarding people.					
How	Choose gifts, awards and raffle prizes that aren't centred on alcohol and that reflect the values the club wants to promote. This includes selecting items that celebrate achievement, support healthy lifestyles, or appeal to a wide range of people. Keep a list of suggested gifts, awards and prizes to help volunteers with selection and reinforce a consistent shift away from alcohol-related rewards.					
Action items	1. Communicate to volunteers and members the club's policy not to provide alcohol-only gifts, awards and raffle prizes. This includes end of season gifts for coaches and members. 2. Ensure that any prizes the club provides, whether for raffles, awards or events, are chosen with inclusivity in mind and are not centred on alcohol. 3. Keep a list of suggested gifts, awards and prizes to help volunteers with selection and reinforce a consistent shift away from alcohol-related rewards. 4. Check out the Good Sports resource for ideas on alternatives gifts, award, and raffle prizes.					
Policy	Our club does not endorse alcohol-only gifts, awards, or raffle prizes.					

Resources:

- Prize ideas for your club

Does your club ensure that coaches, members, officials and volunteers do not coach, play or officiate while under the influence of alcohol or illicit drugs?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Coaches, members, officials, and volunteers do not coach, play or officiate while under the influence of alcohol or illicit drugs.					
Why	Coaches, members, officials and volunteers set the standard for behaviour within the club. Juniors often look to them as role models, so their conduct helps shape expectations around responsible behaviour. Being under the influence of alcohol or illicit drugs can impair judgement, coordination and reaction time, increasing the risk of injuries. In addition, many sporting codes and local laws require participants to be free from alcohol and illicit drugs during official activities.					
How	Ensure that coaches, members, officials, and volunteers understand that they must not be under the influence of alcohol or illicit drugs while coaching, playing, or officiating. This expectation should be clearly reflected in the club's Code of Conduct.					
Action items	1. Include a statement in your club's Code of Conduct that coaches, members, officials and volunteers must not be affected by alcohol or illicit drugs while coaching, playing or officiating. 2. Communicate these requirements to all coaches, members, officials and volunteers so they understand what is expected of them and the standards they are responsible for upholding. 3. Ensure committee members know how to respond if a coach, member, official or volunteer appears under the influence of alcohol or illicit drugs – refer to the Good Sports Incident Response Procedure.					
Policy	Our club prohibits coaches, members, officials and volunteers from coaching, playing or officiating if under the influence of alcohol or illicit drugs.

Does your club committee commit to implementing the Good Sports program?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club committee commits to implementing the Good Sports program.					
Why	Change starts at the top. When a club committee demonstrates commitment to implementing harm reduction policies and practices, it creates shared understanding, leadership and action across the club. Committee support helps embed Good Sports principles into club culture, sets clear expectations for members and volunteers, and strengthens the club's ability to provide a safe, inclusive and family-friendly environment.					
How	Discuss your involvement in Good Sports at your next committee meeting to ensure everyone understands the program and the club's commitment. You can invite your Good Sports Relationship Manager to discuss what Good Sports is and why involvement and committee support is beneficial to your club.					
Action items	1. Add Good Sports to your next committee meeting agenda and formally agree to implement the program. 2. Consider whether you would like your Good Sports Relationship Manager to attend your committee meeting to talk about how the program will benefit your club, volunteers, members and broader community. 3. Identify a committee member or volunteer who will lead the program implementation. 4. Communicate the committee's commitment to coaches, officials, volunteers and members. 5. When your club signs its Good Sports Policy, ensure the policy is applied consistently and reviewed regularly.					
Policy	Our club committee commits to implementing the Good Sports program, and actions that reduce alcohol and drug-related harms to support a safe, inclusive, family-friendly environment.

Governance

Strengthens club operations by enhancing governance structures, including incident management, policy development and the club's code of conduct.

Criteria	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Club abides by a Code of Conduct	✓	✓	✓	✓	✓	✓
Club has a Social Media Policy that prohibits coaches, officials, members and volunteers from posting images of members drinking alcohol, smoking and vaping on club social media channels	✓	✓	✓	✓	✓	✓
Club has a plan for handling media enquiries	✓	✓	✓	✓	✓	✓
Good Sports Policy will be available for club members to access	✓	✓	✓	✓	✓	✓

Does your club have a Code of Conduct in place that club coaches, officials, members and volunteers abide by?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club abides by a Code of Conduct.					
Why	A Code of Conduct outlines the rules, responsibilities and expectations of coaches, officials, members and volunteers; all of which create an environment at the club that is respectful, inclusive, family-friendly and promotes good sportsmanship.					
How	If your club is governed by a sporting body (e.g. league, association, or state sporting organisation), check whether they provide a recommended Code of Conduct. If no code is available, you can use one of the many Code of Conduct templates found online or on government websites.					
Action items	1. Adopt the Code of Conduct provided by your governing sporting body. If no code exists, decide whether your club will use a single Code of Conduct for everyone (coaches, volunteers, parents, and members) or separate codes tailored to each group. Templates are available online, including at playbytherules.net.au/templates. 2. Clearly outline how breaches of the Code of Conduct will be managed and include these procedures within the code itself. 3. Ensure all coaches, members, and volunteers are aware of the Code of Conduct and understand its purpose. 4. Ask all new coaches, officials, members and volunteers to read and sign the Code of Conduct to confirm they understand and agree to the club's values and expectations.					
Policy	Our club's coaches, officials, members and volunteers abide by our Code of Conduct.					

Resources:

- Play by the rules

Does your club have a plan for responding to incidents involving alcohol?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has a plan for responding to incidents involving alcohol.					
Why	Clubs have a legal and ethical responsibility to keep people safe. A clear management plan for alcohol-related incidents helps the club act quickly, reduce harm and prevents escalation. It also ensures anyone affected by alcohol receives appropriate support, (first aid, arranging safe transport or contacting emergency services). Responding appropriately protects members and guests and builds trust in the club.					
How	Ensure your club has incident management plan in place to handle alcohol-related incidents. Good Sports provides an Incident Response Procedure and an Incident Register template for recording incidents. Consider appointing a volunteer wellbeing officer or similar role. This person can support coaches and volunteers with what to do in the case of an incident.					
Action items	1. Keep the Good Sports Incident Response Procedure for incidents involving alcohol easily accessible (e.g. in the club office, shared drive or handbook). 2. Review the Incident Response Procedure annually or when new committee members join. 3. Document incidents involving alcohol in an Incident Register. Good Sports has a template you can use for this. 4. Appoint and train a volunteer to a wellbeing officer role to support others to manage any incidents involving alcohol.					
Policy	Our club has a plan in place that ensures an appropriate and timely response to incidents involving alcohol.					

Resources:

- Incident response procedure: Alcohol
- Incident register

Does your club have a Social Media Policy that prohibits club coaches, officials, members and volunteers from posting images of themselves or others drinking alcohol, smoking, or vaping, on official club social media channels or the club website?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has a Social Media Policy that prohibits coaches, officials, members and volunteers from posting images of members drinking alcohol, smoking and vaping on club social media channels.					
Why	Posting photos or videos of people drinking alcohol, smoking, or vaping can harm your club's reputation, send the wrong message to young people, and undermine responsible behaviour. A Social Media Policy helps maintain a safe, inclusive, and family-friendly online presence while encouraging positive role modelling. It also helps protect young people from content that normalises these behaviours. Sharing images that reflect club principles like health, teamwork, and respect strengthens your club's public standing and reinforces club values.					
How	Use the Good Sports Social Media Policy and adopt the recommended practices. These practices will ensure your club's social media and website only promote safe, respectful and family-friendly messages.					
Action items	1. Review your club's social media channels and club website and remove anything that doesn't align with the club's Social Media Policy and values. 2. Implement a Social Media Policy - Good Sports has a template 3. Circulate the Social Media Policy with club leaders, volunteers and members, ensuring they understand the policy and expectations.					
Policy	Club coaches, officials, members and volunteers abide by the club's Social Media Policy. This includes not posting images of themselves or others drinking alcohol, smoking or vaping, on official club social media channels or the club website.					

Resources:

- Good Sports social media policy template
- Good Sports promotional guidelines

Does your club have a plan for handling media enquiries about alcohol or illicit drug-related incidents involving the club?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has a plan for handling media enquiries.					
Why	A media plan helps clubs respond to incidents involving alcohol or drugs in a way that protects club reputation, maintains trust with the community and ensures fair and accurate communication. Negative media coverage can quickly escalate, affecting public perception and trust in the club. Mishandling media enquiries can put relationships with sponsors, and the broader community at risk. Sponsors expect clubs to act responsibly and transparently when issues arise.					
How	If your club is governed by a sporting body (e.g. league, association, state sporting organisation), check whether they have a recommended approach to responding to media enquiries. If not, use the Good Sports Media Response Guide, which steps you through the basics of responding to media. If an incident occurs, ensure you alert your Good Sports Relationship Manager as soon as possible, as the Alcohol and Drug Foundation's Media Manager may be able to assist you to contain the issue.					
Action items	1. Adopt your sporting body's approach to addressing media enquiries related to club incidents or use the Good Sports Media Response Guide. 2. Identify who will be your club's official spokesperson for media. 3. Make your coaches, officials, members and volunteers are aware of your official spokesperson and that all media enquires must be directed to this individual.					
Policy	Our club has a plan for managing any media enquiries about alcohol or drug-related incidents involving the club, including that all media enquiries will be handled by the club's designated spokesperson.					

Resources:

- Good Sports media response guidelines

Does your club commit to having your Good Sports Policy accessible for club members and volunteers?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Good Sports Policy will be available for club members to access.					
Why	It is important for coaches, officials, members and volunteers to understand the club's shared commitment to health, safety and wellbeing, as well as their responsibility to abide by the policy to help create a safe and healthy environment. Having the club's Good Sports Policy accessible ensures everyone understands the expectations, responsibilities and standards of behaviour.					
How	Ensure your Good Sports Policy is easily accessible. A policy is only effective if people know it exists and understand what it means for them. Share the Policy online (such as on your club social media channels or website) or provide printed copies in the club rooms so everyone can refer to it when needed.					
Action items	Your club can do this by making your Good Sports Policy easy to access and clearly communicated. For example: 1. Upload the Policy to your club website or member portal. 2. Share the Policy via email or newsletters with coaches, officials, members and volunteers. 3. Include the Policy in induction or onboarding materials for new coaches, volunteers and members. 4. Display a hard copy of the Policy in common areas of the club (e.g. clubhouse noticeboards). 5. Refer to the Policy at committee meetings, training sessions or season briefings.					
Policy	Our club ensures the Good Sports Policy is accessible for all coaches, officials, members and volunteers.					

Illicit Drugs

Supports the protection of members' health and safety by increasing awareness of illicit drug harms, establishing clear rules and expectations, and providing guidance on responding to drug-related incidents.

Criteria	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Club provides opportunities for coaches, officials, members and volunteers to learn about illicit drugs and ways to prevent or reduce drug-related harm	✓	✓	✓	✓	✓	✓
Club communicates its rules and expectations about illicit drug use and related behaviours	✓	✓	✓	✓	✓	✓
Club has a plan for responding to illicit drug use or incidents involving illicit drugs	✓	✓	✓	✓	✓	✓

Does your club provide opportunities for coaches, officials, members and volunteers to learn about illicit drugs and ways to prevent drug-related harm?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club provides opportunities for coaches, officials, members and volunteers to learn about illicit drugs and ways to prevent or reduce drug-related harm.					
Why	Illicit drug use refers to the use of illegal drugs, as well as the use of medications without a prescription or in a non-prescribed manner. When coaches, officials, members and volunteers understand illicit drug-related risks, they can help prevent and minimise harm across the club and community. Increasing awareness helps people make informed choices and recognise when someone may need support and demonstrates the club's commitment to reducing harm.					
How	Good Sports offers the online module: 'Tackling Illicit Drugs', that you can share with your coaches, officials, members and volunteers. Support your club by organising a workshop or information session with your local alcohol and other drug service. Share helpful information and resources through your club's social media channels or club website.					
Action items	1. Identify the most appropriate education strategy for your club - e.g. organised training, completion of Good Sports Tackling Illicit Drugs online module, distribution of information and resources. 2. Participate in local and national drug awareness campaigns, for example, sharing relevant posts on your club social media. 3. Consider promoting the Alcohol and Drug Foundation's 'Text The Effects' SMS line on social media channels - 0439 835 563 (0439 TELL ME) - for immediate information about any drug. 4. Consider referring people to the Alcohol and Drug Foundation's confidential chatbot 'dib' on the ADF website for evidence-based information about illicit drugs. 5. Designate a club member to coordinate drug education efforts.					
Policy	Our club provides opportunities for coaches, officials, members and volunteers to learn about illicit drugs and ways to prevent or reduce drug-related harm.					

Resource:

- Tackling illicit drugs online module
- ADF drug facts guide
- ADF services poster

Does your club clearly communicate its expectations about illicit drug use and related behaviour (at the club, during events, and on trips) to all coaches, officials, members and volunteers?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club communicates its expectations about illicit drug use and related behaviours.					
Why	Clearly communicating your club's expectations about illicit drug use at the club, during events and on trips, reinforces the club's commitment to fostering a positive, inclusive, and family-friendly environment. When coaches, officials, members, and volunteers understand illicit drug-related harm and your club's standards of behaviour, they can respond consistently, respectfully and in a manner that considers the safety and wellbeing of everyone.					
How	Understand when and where illicit drug-related harm may be more likely to occur, such as at club events, trips, and celebrations, and clearly communicate the club's expected standards of behaviour. Respond consistently and respectfully when illicit drug use or related behaviour occurs at your club, using agreed procedures and prioritising safety and wellbeing.					
Action items	1. Share the Good Sports online module 'Tackling Illicit Drugs' with your coaches, officials, members and volunteers to increase awareness on illicit drugs and managing harm. 2. Communicate the club's expectations about illicit drug use and related behaviour with members and volunteers. Consider documenting these in your club's Code of Conduct. 3. When responding to illicit drug use or related behaviour at your club, reinforce respectful and appropriate conversations that prioritise safety and wellbeing.					
Policy	Our club clearly communicates its expectations about illicit drug use and related behaviour (at the club, during events, and on trips).					

Resources:

- Tackling illicit drugs online module

Does your club have a plan for responding to illicit drug use, or incidents involving illicit drugs?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has a plan for responding to illicit drug use or incidents involving illicit drugs.					
Why	Illicit drug use refers to the use of illegal drugs, as well as the use of pharmaceutical drugs without a prescription or not as prescribed. The Good Sports website has more information about illicit drug use. Illicit drug use is an issue that affects many communities, so it's important to recognise that it may occur within a club environment and be prepared to respond safely and consistently. Having a clear plan for responding to illicit drug use or related incidents helps your club protect the safety and wellbeing of everyone on site. When committee members, coaches and volunteers know what to do, the club can respond consistently, and in line with the law and the club's values. This supports a safe and welcoming club environment.					
How	Ensure your club has a plan in place for addressing illicit drug use or related incidents at your club. Good Sports has an Incident Response Procedure, as well as an Incident Register template for recording any incidents. Consider appointing a wellbeing officer (or similar) to support coaches and volunteers with how to manage incidents.					
Action items	1. Keep the Good Sports Incident Response Procedure for incidents involving illicit drugs easily accessible (e.g. in the club office, shared drive or handbook). 2. Review the Incident Response Procedure annually or when new committee members join. 3. Document incidents involving illicit drugs in an Incident Register. Good Sports has a template you can use for this. 4. Appoint and train a volunteer to a wellbeing officer role to support others to manage any incidents involving illicit drugs.					
Policy	Our club has a plan in place that ensures an appropriate and timely response to illicit drug use, or incidents involving illicit drugs.

Juniors

Supports clubs to reduce young people's exposure to alcohol and other drugs through positive role modelling, providing alcohol-free environments, and limiting alcohol promotion.

Criteria	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Alcohol is not consumed in the change rooms or changing areas when people aged under 18 are present	✓	✓	✓	✓		
Club does not permit alcohol to be sold, supplied or consumed at junior games, training or competitions	✓		✓			
Club does not permit alcohol to be sold, supplied or consumed at junior events or presentations	✓		✓			
Club does not promote alcohol brands and products on junior team clothing or equipment	✓		✓		✓	

Does your club ensure that alcohol is not sold, supplied or consumed at junior games, training or competitions?

Stream	**CSJ**	CSNJ	**CNSJ**	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not permit alcohol to be sold, supplied or consumed at junior games, training or competitions.					
Why	Keeping junior games, training and competitions alcohol-free helps to create safe, inclusive and family-friendly environments, where the focus remains on participation, enjoyment and development. Young people's attitudes and behaviours are strongly influenced by what they see in sport. Reducing exposure to alcohol helps delay early use, supports healthy development, and reinforces positive role-modelling by adults. It also reduces the risk of alcohol-related incidents and ensures junior sport remains welcoming for families, volunteers and the wider community.					
How	Set a good example for young people by making sure alcohol is not sold, supplied or consumed during junior games, training or competitions.					
Action items	1. Ensure alcohol is not sold, supplied or consumed (including BYO) at junior games, training and competitions. 2. Communicate this standard before each season and reinforce it regularly throughout the season (including to visiting clubs/teams), with an explanation of why it is important to your club. 3. Where possible, remove access and visibility to alcohol during junior games, training or competitions, including at shared venues. 4. Display appropriate signage explaining that your club is alcohol-free when juniors are playing, training and competing.					
Policy	Our club does not permit alcohol being sold, supplied or consumed at junior games, training or competitions.

Does your club ensure that alcohol is not sold, supplied or consumed at junior events or presentations?

Stream	**CSJ**	CSNJ	**CNSJ**	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not permit alcohol to be sold, supplied or consumed at junior events or presentations.					
Why	Keeping junior events and presentations alcohol-free helps to create safe, inclusive and family-friendly environments, where the focus is on celebrating young people's playing achievements. Young people are strongly influenced by what they see in sport, including how adults celebrate. It is important to ensure that drinking is not seen as a normal or expected part of celebrations for young people. Role-modelling alcohol-free celebrations shows that achievements and events can be celebrated without drinking, which can contribute to delaying the early use of alcohol.					
How	Set a good example for young people by making sure alcohol is not sold, supplied or consumed during junior events or presentations.					
Action items	1. Ensure alcohol is not sold, supplied or consumed (including BYO) at junior events or presentations. 2. Communicate this standard with an explanation of why it is important to your club. 3. Where possible, remove access and visibility to alcohol during junior events or presentations. 4. Display appropriate signage explaining that your club is alcohol-free when junior events and presentation are being held.					
Policy	Our club does not permit alcohol being sold, supplied or consumed at junior events or presentations.					

Resource:

- Managing junior environments
- Alcohol free junior poster

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Alcohol is not consumed in the change rooms or changing areas when people aged under 18 are present.					
Why	Change rooms and changing areas are shared spaces where young people may be influenced by what they see and hear, including how adults or role models behave after training and games. Ensuring alcohol is not consumed in change rooms or changing areas when a person under 18 is present helps create a safe environment and reduces exposure to alcohol.					
How	Set a good example for young people by making sure alcohol is not consumed in change rooms or changing areas when people under 18 are present.					
Action items	1. Commit to alcohol not being consumed in change rooms or changing areas when a person aged under 18 years is present. 2. Clearly communicate this expectation to members, coaches, and officials (e.g. at season launch meetings or player information sessions). 3. Support coaches and team leaders to model and uphold this expectation and monitor any breaches.					
Policy	Our club does not permit alcohol to be consumed in the change rooms or changing areas when people aged under 18 are present.

Does your club ensure alcohol brands and products are not promoted or advertised on junior team clothing or equipment?

Stream	**CSJ**	CSNJ	**CNSJ**	CNSNJ	**NCNSJ**	NCNSNJ
Criteria	Club does not promote alcohol brands and products on junior team clothing or equipment.					
Why	Avoiding alcohol advertising on junior clothing and equipment helps to limit a young person's exposure to alcohol promotion. This reduces alcohol brands becoming familiar or linked with sport at an early age. By keeping junior sport free from alcohol promotion, clubs support healthier attitudes, prevent early normalisation of drinking, and create a positive family-friendly environment.					
How	Review junior sponsorship and uniform arrangements. Where alcohol sponsorship exists, your club should exclude junior teams from those agreements or work with sponsors to adjust arrangements. Clearly communicate alcohol promotion expectations to sponsors, members and suppliers to ensure everyone understands and supports this approach.					
Action items	1.Review sponsorship and branding arrangements to ensure alcohol brands and products are not included on junior clothing or equipment. 2. Exclude junior teams from alcohol sponsorship agreements, or renegotiate existing arrangements. 3. Work with uniform providers to remove existing alcohol brands and product logos from junior clothing and equipment. 4. Clearly communicate expectations to sponsors, members, and volunteers that junior teams will not display alcohol brands or products, reinforcing the club's commitment to protecting young people from alcohol marketing.					
Policy	Our club ensures alcohol brands and products are not promoted or advertised on junior team clothing or equipment

Is your club aware of its liquor licence requirements or exemption requirements?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club is aware of its liquor licence requirements or exemption requirements.					
Why	Any club that sells or supplies alcohol on their premises must have a liquor licence or permit and abide by local laws. It's the club's responsibility to be aware of the licence or permit required. A liquor licence or permit controls how alcohol is sold and supplied. There are serious penalties for not complying with your licence. Clubs that do not sell or supply alcohol but allow members to bring their own (BYO) alcohol may be exempt from a liquor licence depending on their state or territory, while others will require a 'BYO permit'.					
How	Check your liquor licence conditions annually and ensure your club is complying with all licence conditions. If your club doesn't sell or supply alcohol but allows members to BYO, check whether you need a liquor licence or permit and ensure your club meets any permit conditions.					
Action items	1. Review the Good Sports Club Liquor Licensing resource for your state or territory, or contact your liquor licensing authority to confirm your club has the correct liquor licence or permit. 2. Review the conditions and requirements of your liquor licence or permit annually to stay up to date with any changes to state or territory laws. 3. Make any necessary changes to club practices to ensure your club is continuing to comply with all liquor licence or permit requirements, including local laws.					
Policy	Our club is aware of our liquor licence or exemption requirements, and we review our licence annually to ensure we continue to meet all conditions and requirements.

Does your club display all alcohol-related signage required by your liquor licence or permit?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club displays correct signage in alignment with state or territory liquor licensing laws.					
Why	As part of your club's liquor licence, you are required to display alcohol-related signage at your club, as well as your liquor licence details. Signage varies between states and territories but generally relates to the sale and supply of alcohol to intoxicated people, and to people aged under 18 years. Displaying the correct signage supports bar staff to serve alcohol responsibly. Clubs that are exempt from a liquor licence (e.g. BYO-only clubs) may also be required to display signage in some states/territories. Penalties apply if these requirements are not met.					
How	Check your club's liquor licence or permit for the signage you are required to display at your club. Ensure you have the correct signs displayed in the right places.					
Action items	1. Review the conditions and requirements of your club's liquor licence or permit annually in relation to signage. 2. Make any required changes to club signage to ensure you remain compliant with your licence or permit. The up-to-date signage can be downloaded from your state or territory liquor regulatory body.					
Policy	Our club complies with its liquor licence or permit requirements in relation to signage.

Does your club only sell, supply or consume alcohol during the times specified on your liquor licence?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Alcohol is only served during the times specified in the liquor licence.					
Why	Your club is only allowed to sell, supply or consume alcohol during the times specified on your liquor licence. Penalties apply if these requirements are not met.					
How	Check your club's liquor licence for the hours you are allowed to sell, supply or consume alcohol at your club. If you need to change your club's hours, make sure you let everyone in your club, including the bar staff, know in advance.					
Action items	1. Review your club's liquor licence to confirm the times you are allowed to sell, supply or consume alcohol. 2. If a change is required, communicate the updated hours to your club members and bar staff.					
Policy	Our club ensures alcohol is only sold, supplied or consumed during the times specified in our liquor licence

Does your club ensure that alcohol is not sold or supplied to anyone under 18 years of age?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Alcohol is not sold or supplied to people under the age of 18 years.					
Why	Young people are more vulnerable to alcohol-related harm, and early use of alcohol increases the risk of serious problems later in life. Alcohol can affect memory, learning, decision-making and emotional development. Young people who drink are also more likely to experience injuries, risky behaviours and mental health impacts. Delaying alcohol use for as long as possible can protect their health, safety and long-term development.					
How	Ensure that alcohol is only sold and supplied to people aged 18 or older at your club. Anyone who looks 25 years old or younger should be asked for identification when attempting to buy alcohol.					
Action items	1. Ensure that your club does not sell or supply alcohol to anyone aged under 18. 2. Ensure bar staff ask anyone who looks 25 years old or younger for 'proof of age' and let members and guests know what 'proof of age' is acceptable, e.g. driver's licence, proof of age card, passport. 3. Display the 'proof of age' signage to assist staff to implement this requirement					
Policy	Our club ensures that alcohol is not sold or supplied to members or guests who are aged under 18 years.

Does your club prevent intoxicated people from entering the premises?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Intoxicated people are not permitted to enter the premises.					
Why	**CS:** Whether your club has a liquor licence or not, ensuring intoxicated people are not permitted to enter your club supports RSA principles, helps prevent injury and conflict, and maintains a safe, family friendly environment. In some jurisdictions, it is an offence for intoxicated people to enter licensed premises, risking fines or loss of licence. **CNS and NCNS**: Whether your club has a liquor licence or not, ensuring intoxicated people are not permitted to enter the club meets your duty of care, helps prevent injury and conflict, and maintains a safe, family-friendly environment.					
How	**CS:** Ensure that intoxicated people don't enter club premises by monitoring entry points. Ensure bar staff are trained to recognise signs of intoxication and apply RSA requirements. consistently. When a person appears intoxicated, staff should politely refuse entry, explain RSA obligations and the club's commitment to maintaining a safe environment for members and guests. **CNS and NCNS:** Ensure committee members or responsible volunteers understand intoxication risks, are familiar with signs of intoxication and know how to respond safely. When a person appears intoxicated, committee members should politely refuse entry and explain the club's commitment to maintaining a safe environment for members and guests.					
Action items	**CS:** 1. Ensure bar staff have completed RSA training and are familiar with the signs of intoxication and how to refuse entry. The Good Sports Managing Intoxication at Your Club resource provides guidance. 2. Display signs at club entrances informing members and guests that intoxicated people will be asked to leave the club. 3. Establish a process for observing entrances to the premises. 4. Offer support to people who are intoxicated by providing water and helping them leave safely. Police may be contacted for assistance if required. **CNS and NCNS:** 1. Ensure committee members understand intoxication risks, are familiar with the signs of intoxication and how to respond safely. The Good Sports Managing Intoxication at Your Club resource provides guidance. 2. Display signs at club entrances informing members and guests that intoxicated people will be asked to leave the club. 3. Offer support to people who are intoxicated by providing water and helping them leave safely. Police may be contacted for assistance if required.

Does your club refuse service of alcohol when there are reasonable grounds to believe a person is intoxicated?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Intoxicated people are not served alcohol.					
Why	Serving alcohol to an intoxicated person is prohibited in all Australian states and territories. Refusing service is an RSA requirement and helps reduce the risk of alcohol-related harm. Bar staff should be able to recognise the signs of intoxication and have reasonable grounds for their decision, based on a person's behaviour, the amount and type of alcohol they've consumed, and, where appropriate, information from team mates/friends. By stopping service at the right time, bar staff can help protect the individual and others around them, as well as maintain a safe and welcoming environment for everyone.					
How	Display signs at your club to make it clear that intoxicated people will not be served alcohol. Ensure that all bar staff have completed RSA training.					
Action items	1. Ensure bar staff have completed RSA training and are familiar with the signs of intoxication. 2. Display signs at your club informing members and guests that intoxicated people will not be served alcohol in your club.					
Policy	Our club ensures that all bar staff follow Responsible Service of Alcohol practices when refusing service to an intoxicated person.

Does your club have a process for managing people who are intoxicated on your premises?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has a process for managing people who are intoxicated on the premises.					
Why	**CS:** Ensuring intoxicated people are supported to leave club premises supports RSA principles, helps prevent injury and conflict, and maintains a safe, family friendly environment. In some jurisdictions, it is an offence for intoxicated people to remain on licensed premises, risking fines or loss of licence. **CNS:** Ensuring intoxicated people are supported to leave club premises supports RSA principles, helps prevent injury and conflict, and maintains a safe, family friendly environment.					
How	**CS:** Ensure bar staff are trained to recognise signs of intoxication and understand their RSA obligations. If a person at the club shows signs of intoxication, service of alcohol must cease immediately. Staff should clearly and respectfully explain the reason for refusing service, referring to RSA requirements and the club's commitment to maintaining a safe environment for members and guests. **CNS:** Ensure committee members understand how to recognise signs of intoxication and respond appropriately. If a person at the club shows signs of intoxication, the committee or responsible volunteers should take steps to manage the situation safely. This includes clearly and respectfully explaining the club's expectations and duty of care. You can offer water, help arrange safe transport, and request the person leave the premises when they are able to.					
Action items	**CS**: 1. Ensure bar staff have completed RSA training, are familiar with the signs of intoxication and actively monitor bar service and floor areas. The Good Sports Managing Intoxication at Your Club provides guidance. 2. Stop serving alcohol to people who show signs of intoxication and provide water. 3. Display signage informing members and guests that intoxicated people will not be will not be served alcohol and asked to leave the premises. Police may be contacted for assistance if required. 4. Offer support to people by helping them leave safely. **CNS:** 1. Ensure volunteers understand intoxication risks, are familiar with signs of intoxication and know how to respond safely. The Good Sports Managing Intoxication at Your Club resource provides guidance. 2. Display signage informing members and guests that intoxicated people will be asked to leave the premises to maintain a safe, family-friendly environment. Police may be contacted for assistance if required. 3. Provide water to anyone showing signs of intoxication and offer support to people by helping them leave safely.					
Policy	Our club has a process for managing people who are intoxicated on the premises.

Does your club follow local laws in relation to alcohol consumption, even if your club doesn't require a liquor licence?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club observes local laws in relation to alcohol consumption.					
Why	Councils use local laws to address issues and respond to community needs, protecting and enhancing public health and safety. These laws operate alongside state and federal legislation. Your local council may have alcohol-related laws in addition to state or territory government laws, it's important to know what your local laws do and don't permit.					
How	Check whether your local council has any alcohol-related laws that apply to your club, including rules about drinking in public spaces, alcohol consumption at council-owned facilities, and event permits.					
Action items	1. Contact your local council to find out what local laws are in place. 2. Review local laws and make any changes to club practices to ensure the club is compliant.					
Policy	Our club complies with all requirements of any alcohol-related local laws.

Mental Health

Promotes the mental health and wellbeing of club members by providing education opportunities and strengthening pathways to appropriate support services.

Note: Criteria in red font is minimum criteria

Criteria	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Club provides an opportunity for coaches, officials, members and volunteers to be educated about mental health	✓	✓	✓	✓	✓	✓
Mental health materials from reputable mental health organisations are promoted within the club	✓	✓	✓	✓	✓	✓
Club has a plan for responding to critical incidents that have an impact on mental health	✓	✓	✓	✓	✓	✓

Does your club provide opportunities for coaches, officials, members and volunteers to build their mental health awareness and learn about available support services?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club provides an opportunity for coaches, officials, members and volunteers to be educated about mental health.					
Why	When coaches, officials, members and volunteers are more informed about mental health, they are better prepared to foster an inclusive and supportive club environment. This helps reduce stigma and creates a more welcoming, safe space for everyone. Being informed about mental health can also boost confidence and ability of club leaders and coaches to recognise concerns, offer support and refer people to support services when needed.					
How	Good Sports offers an online mental health awareness module that you can share with your coaches, officials, members and volunteers. Support your club by organising a workshop or information session with a mental health service provider, or by sharing helpful information and resources through your club's social media channels or website.					
Action items	To increase mental health awareness at your club: 1. Identify the most appropriate awareness raising strategy. This may include: • organising a workshop or information session with a mental health service • circulating the Good Sports mental health awareness online module • circulating mental health information and resources on your club's social media channels or website. 2. Participate in mental health awareness campaigns, such as 'R U OK? Day' or consider hosting a mental health round or event. 3. Designate a club member to coordinate mental health awareness efforts.					
Policy	Our club provides opportunities for coaches, officials, members and volunteers to build their mental health awareness and learn about available support services.					

Resources:

- Mental health awareness online module

Does your club promote information about mental health support services?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Mental health materials from reputable mental health organisations are promoted within the club.					
Why	Promoting mental health support services is important for your sporting community. It helps people know where to turn when they need support, encourages help-seeking, and shows that the club is committed to health and wellbeing.					
How	Promote positive mental health by displaying posters at your club with contact details for national or local mental health support services. Encourage help-seeking by sharing these support services on your club's social media channels and website.					
Action items	1. Display the Good Sports mental health posters and other resources from reputable mental health support services, such as Beyond Blue, headspace or Lifeline. 2. Regularly acknowledge the importance of member wellbeing and share mental health support services and helplines on your club social media channels or newsletters. 3. Designate a club member to coordinate mental health awareness efforts, ensuring that posters and digital messages are regularly refreshed, and your club participates in mental health awareness campaigns. 4. Encourage open conversations about mental health and support services among your members.					
Policy	Our club promotes information about mental health support services.

Does your club have a plan for responding to critical incidents that have an impact on mental health?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club has a plan for responding to critical incidents that have an impact on mental health.					
Why	A critical incident is a challenging or traumatic event - such as a suicide, road death or natural disaster - that can directly impact the wellbeing of the club and wider community. Unexpected, critical incidents have the potential to significantly affect mental health, lead to distress, shock, grief or longer-term mental health challenges.					
How	Ensure your club has a plan in place to appropriately respond to and manage critical incidents that impact the club. Consider appointing a volunteer wellbeing officer or similar role. This person can support coaches and volunteers with what to do in the case of a critical event.					
Action items	1. Ensure the Good Sports mental health management plan is easily accessible (e.g. in the club office, shared drive or handbook. 2. Appoint and train a volunteer to a wellbeing officer role to oversee the plan and coordinate a response. 3. In the event of a critical incident, the wellbeing officer should follow the plan. This could include organising a session with a mental health service or providing referral pathways for affected club members.					
Policy	Our club has a plan in place to respond to critical incidents that have an impact on mental health.

- Mental health management plan

Smoking and Vaping

Supports the creation and maintenance of smoke-free and vape-free environments through adherence to state and territory laws, education initiatives, and promotion of support services.

Note: Criteria in red font is minimum criteria

Criteria	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Club complies with the smoking and vaping laws and regulations in your state or territory, as well as any local laws that may apply	✓	✓	✓	✓	✓	✓
Signage identifying smoke-free and vape-free areas is displayed at your club	✓	✓	✓	✓	✓	✓
Coaches, members, officials and volunteers do not smoke or vape while involved in official club activities	✓	✓	✓	✓	✓	✓
Club promotes support services and resources that help people to quit smoking or vaping	✓	✓	✓	✓	✓	✓
Club does not sell cigarettes or tobacco products	✓	✓	✓	✓	✓	✓
Club provides an opportunity for coaches, officials, members and volunteers to be educated about smoking and vaping	✓	✓	✓	✓	✓	✓

Does your club comply with the smoking and vaping laws and regulations in your state or territory?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club complies with the smoking and vaping laws and regulations in your state or territory, as well as any local laws that may apply.					
Why	All Australian states and territories prohibit smoking or vaping in enclosed public spaces, including inside sporting facilities and club rooms. There are varying laws for each state and territory, including local laws, that make it illegal to smoke and vape in some outdoor areas, including outdoor sporting venues. A smoke-free and vape-free environment is healthier for everyone, and can also influence healthy behaviours in junior members.					
How	Check out the Good Sports' Smoking and Vaping Guide for information on smoking and vaping laws. There may be additional local laws or requirements. Review the information on tobacco and vaping laws included in the linked resources.					
Action items	1. Ensure you are aware of your legal obligations regarding smoke-free and vape-free environments. 2. Agree on all areas that will be smoke-free and vape-free and any areas where smoking and vaping will be permitted (if appropriate, and in accordance with legislation). If changes are needed from current practice, plan how you'll communicate this to your members and guests. 3. Ensure there is clear signage to show where smoking and vaping is not permitted (and permitted, where appropriate). 4. Inform members of your club's expectations via the club's social media channels, newsletter, or other communications.					
Policy	Our club complies with the smoking and vaping laws and regulations in our state or territory, as well as any local laws that may apply.

Does your club display signage identifying smoke-free and vape-free areas?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Signage identifying smoke-free and vape-free areas is displayed at your club.					
Why	Signage that identifies smoke-free and vape-free areas helps ensure coaches, officials, members, volunteers and guests are not exposed to passive smoke or vapour. State and territory laws require appropriate signage in areas where smoking and vaping are not permitted. Clear signage also helps communicate your club's smoking and vaping policy to all visitors.					
How	Use the Good Sports' resources to find and download smoke-free and vape-free signage for your state or territory.					
Action items	1. Place 'no smoking or vaping' signage inside your club and in outdoor areas, such as playgrounds, training areas, spectator areas and where food is consumed. 2. Identify areas where smoking and vaping is permitted and communicate this to your coaches, members, officials, volunteers and guests.					
Policy	Our club displays smoke-free and vape-free signage and communicates these areas to coaches, members, officials, volunteers and guests.					

Resource:

- Smoking and vaping signage for ACT

Does your club ensure that coaches, members, officials and volunteers do not smoke or vape while involved in official club activities?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Coaches, members, officials and volunteers do not smoke or vape while involved in official club activities.					
Why	Coaches, members, officials and volunteers set the standard for behaviour within the club, and juniors often look to them as role models. By banning smoking and vaping during club activities, you send a strong message about responsible behaviour and help prevent young people from seeing these activities as acceptable or normal. This leadership supports a healthier club environment and reinforces the club's commitment to wellbeing.					
How	Ensure everyone at your club understands the benefits of a smoke-free and vape-free environment and the importance of setting a positive example. Communicate to coaches, members, officials and volunteers that they must not smoke or vape while involved in any official club activity.					
Action items	1. Educate your coaches, members, officials and volunteers about your club's policy on smoking and vaping. 2. Inform your coaches, players, officials and volunteers that they must not smoke or vape while undertaking official club activities. 3. Ensure that images of anyone smoking or vaping are not used on any official club social media channels or other communications.					
Policy	Our club ensures that coaches, members, officials and volunteers do not smoke or vape while involved in official club activities.

- Smoking and vaping management

Does your club promote information about support services and resources that help people to quit smoking or vaping?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club promotes support services and resources that help people to quit smoking or vaping.					
Why	Promoting information about support services and resources for quitting smoking or vaping is important for your sporting community. Sometimes people who are looking to quit do not know where to go for help. By displaying information about quitting in your club rooms, you help people know where to turn when they need support, encourage help-seeking behaviours, and show that the club is committed to health and wellbeing.					
How	Consider sharing a link to the QUIT website via your club social media channels and/or website or displaying QUIT posters and other resources in your club. Access online digital resources to support people to quit smoking and vaping (e.g. via the local council).					
Action items	1. Share a link to the QUIT website via your club's social media channels, newsletter or website (quit.org.au). 2. Download free support resources from quit.org.au, or your state or territory health department website, and share with members who want to quit smoking or vaping. Posters can be displayed on the back of toilet doors.					
Policy	Our club promotes information about support services and resources that help people to quit smoking or vaping.					

Resources:

- QUIT webpage
- Do you need help to quit vaping poster
- Talking about vaping with young people

Does your club refrain from selling cigarettes or tobacco products?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club does not sell cigarettes or tobacco products.					
Why	Prohibiting the sale of cigarettes or tobacco products on club premises creates a healthier, safer, and more family-friendly club environment. It reduces exposure to harmful products, supports junior participation, and aligns with smoke-free sport expectation. It also reinforces the club's role as a positive community leader that prioritises member wellbeing.					
How	Ensure that your club does not sell cigarettes and tobacco products.					
Action items	If cigarettes or tobacco products are being sold at your club, discontinue this practice.					
Policy	Our club does not sell cigarettes or tobacco products.					

Does your club provide opportunities for coaches, officials, members and volunteers to learn about smoking and vaping and how to prevent smoking and vaping related harm?

Stream	CSJ	CSNJ	CNSJ	CNSNJ	NCNSJ	NCNSNJ
Criteria	Club provides an opportunity for coaches, officials, members and volunteers to be educated about smoking and vaping.					
Why	Clubs are well placed to share and provide access to education for coaches, officials, members, volunteers and families regarding the risks associated with smoking and vaping use. Clubs that share and promote these opportunities are more likely to create a safe, respectful and positive club environment, while helping to build strong and healthy communities.					
How	Good Sports delivers a vaping education workshop, which supports clubs to build knowledge and take action on vaping. Good Sports also offers a short video series that equips coaches and club leaders to talk to young people about vaping. Support your club by sharing Good Sports vaping resources through your club social media channels or website.					
Action items	1. Circulate the Good Sports smoking and vaping resources. 2. Circulate "Know the Score on Vaping" - Good Sports Coaches and Club Leaders Training video series to anyone working with junior players. 3. Contact your Good Sports Relationship Manager to organise a face-to-face vaping workshop for your club.					
Policy	Our club provides opportunities for coaches, officials, members and volunteers to learn about the risks and harms associated with smoking and vaping.
